## DEGALVANIZER

For All Roll Formers & Other Duct Manufacturing Equipment

Galvanizing build-up on roll formers and other sheet metal machinery parts can slow productivity and eventually have costly results.

Hardcast Degalvanizer offers a solution with Degalvanizer.

- Safe on metals, alloys, and rubber
- Safe on most painted surfaces
- Fast acting - cuts through galvanized scale, dirt, and rust
- Keeps rolls, dies, punching, shearing, and notching blades operating smoothly
- Extension tube supplied for pin-point application
- As always, adequate ventilation is recommended for this or any other aerosol product
